## Nations Course - An Exciting Program to Train Missionaries in Cross Cultural Ministry

The Nations course has been developed to equip new missionaries with tools to ensure their first term is successful and fruitful. But the course is also valuable for missionaries already on the field.

Nations is largely based on the World Harvest Institute course material which has a proven record of effectively equipping cross cultural workers to quickly reach maximum effectiveness. Without pre-field training, it has been proven to take 7 years to reach maximum effectiveness but with pre-field training this time is reduced to 3 years.

This course is 6 weeks in duration and will be taught by experienced World Outreach missionaries as well as guest lecturers with a proven track record of effectiveness in the field.

The **Nations** course grew out of the need for World Outreach to provide good solid basic training for people intending to spend significant time serving the Lord in missions.

The comprehensive, intense structure of the course maximizes value in the shortest possible time while maintaining a focus for effective long term mission service.

Students of the course have found it extremely helpful as can be seen from their comments:

*It was an excellent course, very positive".*

*"I really enjoyed the course and am thankful to God that He gave us the opportunity to be here these last 6 weeks".*

*"Great, experienced speakers – we learned so much".*

*"I feel so much better prepared for the field now".*

*"I enjoyed the group activities at the weekend – building relationships and having fun together."*

*"The teaching was invaluable."*
